CONTENTS

The Second Annual Meeting of the International Society for Environmental Epidemiology

J. Goldsmith. Introduction. Second Annual Meeting of the International Society for Environmental Epidemiology 3

M. J. Gardner. Father's occupational exposure to radiation and the raised level of childhood leukemia near the Sellafield nuclear plant 5

X. He, W. Chen, Z. Liu, and R. S. Chapman. An epidemiological study of lung cancer in Xuan Wei County, China: current progress. Case-control study on lung cancer and cooking fuel 9

J. A. Lipscomb, L. R. Goldman, K. P. Satin, D. F. Smith, W. A. Vance, and R. R. Neutra. A follow-up study of the community near the McColl waste disposal site 15

D. Shusterman, J. Lipscomb, R. Neutra, and K. Satin. Symptom prevalance and odor-worry interaction near hazardous waste sites 25

R. Neutra, J. Lipscomb, K. Satin, and D. Shusterman. Hypotheses to explain the higher symptom rates observed around hazardous waste sites 31

M. Minowa, S. Hatano, M. Ashizawa, H. Oguru, H. Naruhashi, M. Suzuki, K. Mitoku, M. Miwa, C. Wakamatsu, Y. Yasuda, K. Shirai, and H. Miura. A case-control study of lung cancer with special reference to asbestos exposure 39

D. E. Abbey, P. K. Mills, F. F. Petersen, and W. L. Beeson. Long-term ambient concentrations of total suspended particulates and oxidants as related to incidence of chronic disease in California Seventh-Day Adventists 43

D. M. Spektor, V. A. Hofmeister, P. Artaxo, J. A. P. Brague, F. Echelar, D. P. Nogueira, C. Hayes, G. D. Thurston, and M. Lippmann. Effects of heavy industrial pollution in respiratory function in the children of Cubatao, Brazil: a preliminary report 51

J. R. Goldsmith, Y. Arbeli, and D. Stone. Preventability of neonatal cold injury and its contribution to neonatal mortality 55

S. D. Walter. The ecologic method in the study of environmental health. I. Overview of the method 61

S. D. Walter. The ecologic method in the study of environmental health. II. Methodologic issues and feasibility 67

D. Wartenberg, C. Uchrin, and P. Coogan. Estimating exposure using kriging: a simulation study 75

H. Boeing and R. Frentzel-Beyme. Regional risk factors for stomach cancer in the FRG 83

K.-S. Liu, F.-Y. Huang, S. B. Hayward, J. Wesolowski, and K. Sexton. Irritant effects of formaldehyde exposure in mobile homes 91

G. Viegi, P. Paoletti, L. Carrozzi, M. Vellutini, E. Diviggiano, C. Di Pede, G. Pistelli, G. Giutini, and M. D. Lebowitz. Prevalence rates of respiratory symptoms in Italian general population samples exposed to different levels of air pollution 95

A. I. Goren, J. R. Goldsmith, S. Hellmann, and S. Brenner. Follow-up of schoolchildren in the vicinity of a coal-fired power plant in Israel 101

H. Hu, F. L. Milder, and D. E. Burger. The use of K X-ray fluorescence for measuring lead burden in epidemiological studies: high and low lead burdens and measurement uncertainty 107

P. Grandjean, T. Lyngbye, and O. N. Hansen. Lessons from a Danish study on neuropsychological impairment related to lead exposure 111

M. Hernandez Avila, I. Romieu, C. Rios, A. Rivero, and E. Palazuelos. Lead-glazed ceramics as major determinants cf blood lead levels in Mexican women 117

C. Parry and J. Eaton. Kohl: a lead-hazardous eye makeup from the third world to the first world 121

Y. von Schirnding, D. Bradshaw, R. Fuggle, and M. Stokol. Blood lead levels in South African inner-city children 125

M. H. Rosner, J. A. Grassman, and R. A. Haas. Immunochemical techniques in biological monitoring 131

P. J. E. Compton, K. Hooper, and M. T. Smith. Human somatic mutation assays as biomarkers of carcinogenesis 135

S. H. Swan and B. L. Lasley. When is it time to get married? or when should the assay user and the assay developer collaborate? 143
